**Dear Friends and Colleagues,**

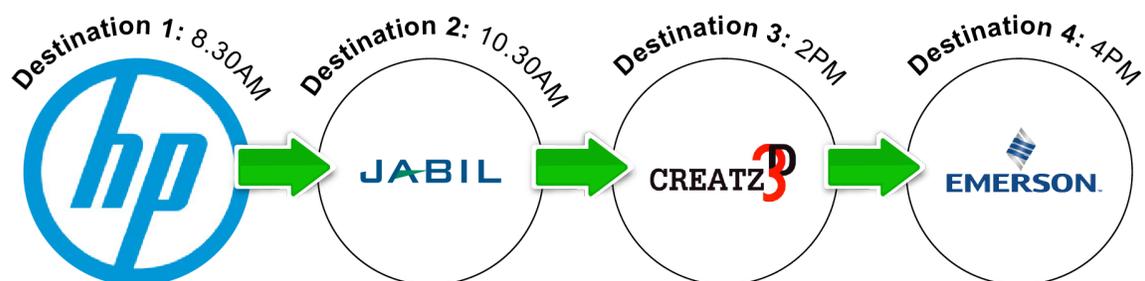

Ever wondered how a **world-class 3D printing centre** operates? Here's your chance to see for yourself!

For the first time ever, we're organising **industry visits** to some of the world's leading 3D printing facilities, based right here in Singapore! **HP, Jabil, Creatz3D and Emerson** are opening their doors on **8 May 2019** to a limited number of guests. Sign up now to avoid disappointment!

## 4 Exclusive Industry Visits

8 May 2019 - Spaces are limited

## Destination 1: HP

8.30am - 10.00am

### ***Smart Manufacturing Application & Research Center (SMARC)***

Step inside SMARC, one of Singapore's landmark advanced manufacturing facilities. The 6,000-square foot facility features four cutting-edge labs that study how productivity can be enhanced by 3D printing, machine intelligence, cobots and AIVs.

## Destination 2: Jabil

10.30am - 12.00pm

### ***The Jabil Additive Manufacturing Network***

Learn how the Jabil Additive Manufacturing Network and Engineered Materials are advancing the entire AM market, right from the factory floor. A must-see for those from heavily-regulated industries such as aerospace, automotive, industrial and healthcare.

## Destination 3: Creatz3D

2.00pm - 3.30pm

### ***Facility Tour & Interactive Printing Session***

Come and see how the SME's tireless efforts contribute to industry adoption in the buzzing local community. In the interactive tour, gain insight into Creatz3D's synergetic initiatives in fostering a culture of collaborative engagement with one of its partners.

## Destination 4: Emerson

4.00pm - 5.30pm

### ***Global Additive Manufacturing Center***

Explore Emerson's metal 3D printing pilot operation and witness fully-functional next-generation components being produced. Discover the strategic significance of AM at an enterprise level – and how it will change operations in the factory of the future.
