## AM MATTERS

September 2021

Supported by

NATIONAL  
RESEARCH  
FOUNDATION  
Prime Minister's Office  
SINGAPORE

### Mark your calendars!

The NAMIC Global AM Summit is returning with its second virtual installment on 25-26 November 2021, congregating over 20 global thought leaders.

#### THEME: REVOLUTIONISING THE FUTURE OF ADDITIVE MANUFACTURING WITH LEADERS IN 3D PRINTING

- Global Investment Perspective on Additive Manufacturing
- Evolution of 3D Printing in Manufacturing and Global Supply Chain
- Breaking New Grounds with Emerging Applications
- Social Impact with 3D Printing

More details [here](#).

## MEET OUR SPEAKERS

"The world of manufacturing is constantly evolving and changing. 3D printers may be the next big step that will solve the everlasting challenge of supply chain management."

- Paul Guillaumot, CEO & Founder, Spare Parts 3D

"The opportunity created by metal AM is significant: it will enable us to revolutionize space travel, domestic flight, energy generation, and more. With a significant opportunity to boost performance and create a more agile supply chain, VELO3D solves those issues. "

- Benny Buller, CEO & Founder, VELO3D

"The consumerisation of 3DP provides opportunities to quickly create effective and affordable solutions for persons with disabilities. Coupled with the digitally-connected global community, one single useful design can be replicated across the world easily, bringing benefits to many."

- Alvin Tan, Head (Technology Catalyst), SG Enable
