NAMIC x SGIInnovate: Additive Food Manufacturing for Personalised Meals

In this hour-long panel discussion, we will dive deep into 3D printing applications in Food, and how 3D printed food enables one of the key pillars in the future of personalized healthcare and sustainability. Join the conversation with 3D printing and food experts from **Future Ready Food Safety Hub (FRESH)**, **Natural Machines**, **Food Innovation & Resource Center of Singapore Polytechnic (SP)** and **Singapore University of Technology and Design (SUTD)** to learn more how the technology empowers all of us with personalized nutrition, especially for dysphagia patients and the elderly.

Date: 24 August 2021, Tuesday

Time: 4:00pm to 5:00pm SGT
