Panel Discussions with Consortium Partners moderated by Koh Shu Yong, BV

Joint Webinar on Additive Manufacturing in Maritime - Charting the Way Forward

22ND MARCH, THURS @ 4 PM

Supported by: MPA, NAMIC, SSA

Organized by: SSA

JOINT WEBINAR ON ADDITIVE MANUFACTURING IN MARITIME - CHARTING THE WAY FORWARD

In 2020, the Maritime and Port Authority of Singapore, NAMIC and the Singapore Shipping Association jointly embarked on Additive Manufacturing Joint-Industry-Project (JIP) Phase 2 to focus on the **fabrication, testing, inspection and certification of marine parts**. This initiative is a continuation after the delivery of Phase 1; the identification of marine parts market feasibility study by DNV. As JIP Phase 2 will be completed in 2022, let us hear from the consortium partners on the achievements these JIPs have attained so far.

Date: 22 March 2022

Time: 4.00pm to 5.15pm SGT

Location: Virtual Zoom webinar

Join us as we uncover **consortium success elements, product realization processes**, as well as help our partners set the scene on what the next step should be to **facilitate greater adoption of AM** in this industry. The Q&A discussion will explore how we can achieve more sustainable adoption of AM
