**AN OVERVIEW OF THE END-TO-END  
ADDITIVE MANUFACTURING SOLUTIONS**  
22 APR 2022, 2PM - 3.10PM SGT, ZOOM EVENT

 <b>SPEAKER</b> MR VINCENT TSIN SALES MANAGER SPARE PARTS 3D	 <b>SPEAKER</b> MR SIMON SI MANAGING DIRECTOR ELH TECH	 <b>SPEAKER</b> DR AARON ONG RESEARCH SCIENTIST INNOVATION CENTRE FOR AM SINGAPORE POLYTECHNIC	 <b>SPEAKER</b> MR MARC LEE HEAD OF IP & COMMERCIALISATION NAMIC	 <b>MODERATOR</b> MR STANLEY POH HEAD OF TECH & ENTERPRISE DEVELOPMENT NAMIC
---	---	--	---	--

CO-ORGANISED BY   SUPPORTED BY    

## AN OVERVIEW OF THE END-TO-END ADDITIVE MANUFACTURING SOLUTIONS

This webinar, co-organised by **Singapore Manufacturing Federation (SMF)** and **NAMIC**, will feature an end-to-end software solutions provider **Spare Parts 3D**. They will share how manufacturers can digitalise their parts inventory and how to identify parts for Additive Manufacturing (AM).

Leading AM service bureau **ELH Tech** will also discuss successful case studies to highlight the feasibility of technology adoption. Companies will be able to find out the types of support offered to lower barriers to adoption, including NAMIC funding and training programs from **Singapore Polytechnic**.

Due to capacity limitations, an on-site facility tour of Qualitek Precision Tooling and ELH Tech is available for SMF members only.

**THE ROLE OF ADDITIVE MANUFACTURING IN TRANSFORMING THE AERONAUTICAL & SPACE INDUSTRIES**

Date: 28 April 2022  
Time: 9am-11am IST/  
11.30am-1.30pm SGT  
Location: Virtual Webinar

**MODERATOR**  
Mr. Marc Lee  
Head of IP & Commercialisation  
NAMIC

**SPEAKER**  
Mr. Ali Baghchehsara  
President  
Plasmos

**SPEAKER**  
Dr. Dheepa Srinivasan  
Chief Engineer  
Pratt & Whitney

**SPEAKER**  
Dr. Govind Bajargan  
Senior Research Scientist  
Vikram Sarabhai Space Centre

**SPEAKER**  
Mr. Gene Miller  
Technical Sales Engineer  
Velo3D

## THE ROLE OF ADDITIVE MANUFACTURING IN TRANSFORMING THE AERONAUTICAL & SPACE INDUSTRIES

In recent years, we have witnessed disruption in the space industry brought about new technologies including **non-traditional hybrid propulsion engines and 3D printed rockets**. Meanwhile, the aviation industry has seen an **increasing number of qualifications** for 3D printed materials and components.

With growth in these industries, this webinar will see 3D printing experts coming together to dive into the **transformative role of additive manufacturing in Aerospace** including benefits, successful use cases with increasing adoption in critical aerospace components, and addressing challenges faced in adopting the technology.
