Thank you for your interest & participation in  
the NAMIC AM Summit 2019 held in Singapore.

## The NAMIC Summit 2019 - Unlocking The Potential of Design for AM

This year's NAMIC Summit 2019 was our longest yet, featuring a week of AM-related activities. Over 300 delegates attended the various events as a testimony to the growing additive manufacturing ecosystem. Read on to catch the highlights below.

### DfAM Conference

Featuring thought-leaders from the global AM Community, the conference focused on Design For AM and attracted over 300 local and international delegates, as well as industry leaders such as Siemens,

### Global Partnership with MgA

Guest of Honour, SMS Koh Poh Koon witnessed the signing of an MOU between NAMIC and Mobility goes Additive (MgA) paving the way for local companies to tap on plug-and-play solutions from MgA's members.

TÜV SÜD, Autodesk, Ansys, Materialise, Hyperganic, Assemblix, The Barnes Group and more.

### Innovative Industry Showcase

16 promising local and international organizations presented their AM solutions and offerings during the industry showcase.

### 3DP Competition Awards

SMS Koh presented prizes to 6 winners of this year's Singapore Centre for 3D Printing (SC3DP) International 3D Printing Competition.

***"High caliber of experts & content in the AM industry"***

*- Lior Polak, CEO & Co-founder, Assemblix Ltd*

## Industry Visits

Summit delegates were invited and given special access to experience what goes on behind the scenes at the AM facilities of HP Smarc, Jabil, Creatz3D and Emerson.

## Start-up Innovation Forum

10 Innovative Start-ups were shortlisted to pitch their ideas and solutions at the inaugural NAMIC Start-up Innovation Forum held at SGINnovate on 10 May. All start ups received invaluable feedback from the jury and the top entries will receive guidance and mentorship to scale up their ideas and businesses.

## AM Workshops

A total of 7 design software and hands on workshops were specifically curated for the Summit week by Atlair, Autodesk, CADFEM, Dassault Systems, Materialise, Miniwiz and Siemens drawing over 250 participants.

## Certification Courses

The 2-day TÜV SÜD AM Quality and Production Management Course explained the importance and nuances of quality management for AM Facilities' managers while the UL Fundamental of Additive Manufacturing Course exposed the participants to the elements of AM including perp course and seated certification examination.

# "You bring together the right ecosystem"

- Herman van Bolhuis, CEO 3D Makers Zone
