Over 30 Exciting Speakers to Look Forward to

Have your pick of the largest-ever gathering of AM experts in Singapore! Distinguished speakers from a wide range of AM domains will share their application stories and insights into this wildly burgeoning technology.

Talks are happening at **the Singapore Expo** on **17 & 18 October** and are divided into three industry tracks - the Plenary Session, the Biomedical Track and the Industrial Track. Be sure to check out the full event guide below!

Quote from speakers:

“ The NAMIC event within the first edition of the Industrial Transformation Asia Pacific is a great opportunity for participants to get a clear update and to put this topic into the bigger perspective of manufacturing agility and performance, to make informed investment decisions.”

David Marchesseau

“ Industry players will showcase their Industry 4.0 digital portfolio for process and discrete industries. The buzzwords of Industry 4.0: Digital Twin, Horizontal- and Vertical Integration and Performance Twin will be demystified. ”

Raimund Klein

“ I look forward to meeting interested parties and discussing how LR can help them in their AM journey. There are often questions about the path to certification.”

Hussain Quraishi

“ This is a unique annual opportunity for the industry at large to acquaint itself with the latest in additive manufacturing and on the latest developments in the area. ”

Dr. Hossein Rezaei

“ AM technology can help to overcome the disciplinary boundaries between architecture, engineering and construction and allow for information to flow seamlessly from one to another.”

Thomas Schroeffer

“ Additive Manufacturing allows for convenient customisation - but that is only one side of the story. Osteopore has been able to commercialise AM technology to benefit patients all over the world. ”

Dr. Lim Jing

“ As more industries begin to understand the true transformation potential of technology, this event provides an excellent platform for us to share how best we can create a sustainable innovation eco-system. ”

Nakul Malhotra

“ 3D Printing will be the next wave of technology development in industries. This conference will bring you the most up-to-date progress in the field. ”

Professor Paul Ho
