Dear Friends and Partners,

A big thank you to everyone who came and supported Singapore AM Week 2023.

We hope our efforts to strengthen the AM community in Singapore yielded much inspiration, intelligence and engagement for all who joined us – **1500 people from 15 countries in all!**

This year's spotlight on emerging applications – particularly in cellular agriculture, sustainable urban solutions and renewables for the environment – was widely explored in the Week's slew of events: 4 workshops, 4 centre tours, the 1kg Challenge 3D design exhibition, 9 international start-ups showcased in our Start-up Innovation Forum and 15 global AM thought leaders at our flagship event, the NAMIC Global AM Summit.

These events were only possible due to the expertise and collaboration of our partners: the Maritime and Port Authority of Singapore (MPA), Formlabs Singapore, Autodesk Manufacturing | I-VTech | Digital Manufacturing Enabler, HP, Hexagon Manufacturing Intelligence, Proterial Asia Pacific (PRAP), Dassault Systèmes, Hyperganic Group as well as the cooperation and support of our team and colleagues at A\*STAR - Agency for Science, Technology and Research, National Research Foundation Singapore (NRF) research foundation, Singapore Economic Development Board (EDB) and Enterprise Singapore.

We are also thankful for the support of Advocate Singapore and the teams involved in the media and production of this event.

But AM Week doesn't stop here! You can find recaps and resources here, including video highlights, photos, contacts and more.

Thank you and see you in the next one!

Pelagus 3D Launch Ceremony

## Memorandum of Understanding Signings

## AM Week in a Glance

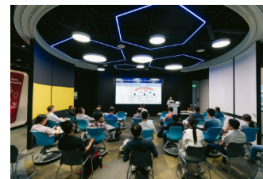

25 Sep | A\*STAR Innovis Building  
Maritime and Port Authority of Singapore – NAMIC: Maritime AM Workshop

25 Sep | Autodesk Singapore

Productivity and Complexity**

for SOLIDWORKS on the  
3DEXPERIENCE Platform

29 Sep | Max Atria, Singapore Expo  
**12th Edition Global Additive  
Manufacturing Summit (GAMS) 2023**

#### TESTIMONIALS

*"The NAMIC GAMS Summit is an invaluable showcase of the latest AM trends, innovations & platform to learn, explore partnership & collaboration. Many thanks to the amazing organising team for the passion, drive and energy that make the summit such a great event to participate in."*

Florence Leong, Director and Co-founder, Kosmode Health Singapore

*"It was an unforgettable experience for us, with participants posing keen questions about the future direction of AM, and the environmental impact of materials and processes. We made many contacts and hope they will lead to fruitful collaborations. We are grateful to NAMIC for its important role in nurturing and cultivating an innovative environment for startups, such as ours."*

Erik Toh, Director, reify 3D
